

Managing Safely

Duration: 4 Days
Accreditation: IOSH

Accreditation

This programme of 4 workshops is accredited by IOSH the Chartered Body for Health and Safety Professionals.

Introduction/Summary

This four day programme is for managers and supervisors in any sector, and any organisation. It's designed to get managers up to speed on the practical actions they need to take to handle health and safety in their teams.

It has been designed for those required to manage risk and resources safely and effectively in compliance with both their organisation's policy and best practice in health and safety.

This IOSH affiliated course ensures that safety requirements are appreciated by people employed as line managers, Health and Safety Advisors, Health and Safety Committee Members and Directors, and enables them to review their own departmental systems for safety.

Qualification

To achieve the qualification learners will be required to pass a written assessment and complete a work based assignment.

Content

The qualification covers the following content:

- Safety Management
- Understanding your responsibilities
- Active and Re Active Monitoring
- Risk Assessment and Risk Control
- Review and Audit
- Health and Safety Legislation
- Identifying Hazards

Requirements/Pre Requisites

There are no pre-requisites for this course although it is aimed at those in a management role.
